

Project Manager Position

Homestead Structures provides a unique company operating system, where a crystal-clear vision is shared by all employees, traction and momentum towards our goals are felt and rewarded, and team health is a priority.

We design and built high-quality, hand-crafted outdoor living structures. Due to an increasing demand for our quality buildings, we are looking for an experienced Project Manager to manage our on-site installs. Based out of our New Holland, PA office, this position consists of managing multiple jobs across the Mid-Atlantic.

If you're looking for a challenging and rewarding position that includes managing complex structure installation projects, look no further!

Duties & Responsibilities

- **Project Planning:** Visiting sites, quoting custom materials, pulling permits, collecting payments, etc.
- **Project Management:** Procuring and managing resources, including skilled trade teams (HVAC, electrical, plumbing, hardscaping, etc.) to ensure projects are completed on-time and to specifications.
- **Additional Duties:** Maintaining project budgets, managing change orders, performing cost analysis, and being the liaison between all groups involved in the project, including the customer.

The right person for the job will:

- Have 3+ years of project management experience.
- Be highly organized and detail-oriented.
- Make remarkable customer service a priority

A degree in Construction Management, Business, or Engineering is a plus, but not required. A PMP Certification or other comparable project management certification is also a plus.

Benefits:

- Full-Time Hours
- Competitive Pay
- Vacation
- Paid Holidays
- And more

Our culture drives our passion for excellence in every customer experience. As an Amish-owned business with an employee-focused business, we take pride in work we perform, practice integrity in all aspects, and accountability for our actions. It is these values and business culture that sets us apart from our competition. Find out more information or apply by visiting our website, www.homesteadstructures.com.
